General Information

Short summary

A Swedish design company and designer of innovative leisure wear is looking fabrics and business partner offering sew services for sportswear, underwear or woolen clothing - commercial agreement.

Full description

A Swedish design company, already in the market is developing a new product: innovative leisure wear. The new innovation helps women not to freeze in minus temperatures in outdoor activities. The key is to develop clothing of merino wool with some warming points targeting to special areas that normally get cold. First prototypes have already been designed and pre-produced.

The company is looking for high quality technical and fleece merino wool, and/or stretchy merino wool fabrics as well as business partner offering sewing services for sportswear, underwear or woolen clothing.

Thick one:

Dubbel jersey wool, WO 23%, CDP 77%, 120-200 G/M

Tecno merino fleece wool 67% polyester, 26% virgin wool, 7 % elastan 250-400 G/M (the best so far)

Thin one:

Tecno merino wool 55% Nylon, 35% virgin wool, 10% elastan 120-200 G/M
fleece wool WO 32%, CDP 64%, PUE 4 %, 250-400 G/M

The company's product is a complement to other clothing, a shell product that is missing on the market today.

The company wants to find a partner with long term partnership.

Advantages and innovations

Technical specification or expertise sought

Merino wool producer
Sewing factory for sports garments or wool garments.
