General Information

Short summary

The Lithuanian textile company is one of the oldest and largest fabric manufacturers in Europe. The company specializes in producing fabrics from various fibers, such as wool, cotton, Tencel, EcoVero viscose, polyester, polyamide, and their blends in different structures. The company is seeking business partners to work under the commercial agreement. Manufacturing and supplying agreements are possible as well.

Full description

The textile company based in Kaunas, Lithuania, is one of the oldest and largest fabric manufacturers in Europe. For more than 20 years the company has offered comprehensive fabric production services, all under one roof, including knitting, fabric dyeing, finishing, quality control, and logistics.

The company specializes in producing fabrics from various fibers, such as wool, cotton, Tencel, EcoVero viscose, polyester, polyamide, and their blends in different structures. Its extensive product range includes a wide selection of high-quality fabrics.

The company offers:

- A diverse range of fabrics: these include Merino wool (organic and RWS-certified), cotton (organic and recycled), polyester (recycled, biodegradable, BRRR (with cooling effects), polyamide (biodegradable), modacrylic, meta-aramid, and various blends.
- Sustainable fabric options: focused on eco-friendly materials such as linen, hemp, bamboo, Tencel, and their blends, providing greener choices for customers.
- Specialized finishing treatments: offering unique fabric finishes like antibacterial, water-repellent, moisture-wicking, antistatic, anti-insect properties, and more.
- Customized fabric development: supported by the material development department, the company can create bespoke fabrics tailored to customer specifications, bringing their vision to life.
- Color customization: the ability to develop any color according to the Pantone Textile catalog.

The company seeks long-term partners in the textile, sport, and athleisure industries, who value high-quality, customizable fabrics. It might be apparel manufacturers, sports brands, textile distributors, etc. The cooperation under the commercial, supplying or manufacturing agreement is offered to them.

Advantages and innovations

- More than 20 years of experience in the fabric production.
- Wide assortment: a broad range of fabrics, catering to diverse customer needs and preferences.
- Customized fabric development: tailored fabric solutions designed to meet specific client requirements, ensuring unique and personalized products.
- EU production facilities: manufacturing based in the European Union, ensuring high quality, compliance with EU standards, and quick turnaround times.
- Color development based on client collection: Ability to develop custom colors (according to the Pantone Textile catalog) that perfectly match the client's collection, offering a unique and cohesive look.
- Minimum order quantities: fabric orders start from just 250-350 meters per color, making them accessible for various customer needs.
- The fabrics wide according to the demand: from 1,3 meters to 1,8-2 meters.
- Oeko-Tex, class 1.

IPR Notes

Partner Sought

Expected role of the partner

The Lithuanian manufacturer seeks long-term partners in the textile, sport, and athleisure industries who value high-quality, customizable fabrics. The ideal partners include:

- Sport and athleisure brands: brands looking to develop unique, sustainable collections with customized fabrics and small order options.
- Apparel manufacturers: companies needing reliable, high-quality fabrics for garment production, with access to a variety of options and specialized finishes.
- Retailers and wholesalers: businesses seeking a wide range of premium and sustainable fabrics to enhance their product offerings.
- Textile distributors: distributors focused on offering high-quality, European-made fabrics with customizable

and sustainable options.

- Sustainability-focused businesses: companies seeking sustainable fabric solutions, including organic and recycled materials.

The producer is offering cooperation under commercial, supplying or manufacturing agreements.
