General Information

Short summary

A French SME is looking to purchase a machine to slit large reels (2.40m wide) of paper or cardboard into smaller reels of varying widths (around 800 mm). The SME is looking for an industrial machine, new or second-hand for delivery to France. A supplier agreement is being sought with manufacturer or reseller of this type of machine, ideally located in Europe.

Full description

The French company specialises in the supply of high-quality raw materials for the packaging and paper industries.

The SME is currently looking for an industrial machine that can slit large reels of paper or cardboard (2.40m wide) with a large diameter (from 1.50m up to 1.80m) into several smaller reels (around 800mm wide) while maintaining the same diameter. The machine would also enable the SME to slit off the ends of coils damaged during transport to make smaller coils and avoid throwing away the defective reels.

The machine must have a reel loading system and must be equipped with a two-axis blade to slit the reel, turn and slit again the reel in the other direction.

The slitting machine may be new or second-hand and should be delivered in France. A supplier agreement is sought

with a manufacturer or reseller of industrial machinery, preferably located in Europe.

Advantages and innovations

Technical specification or expertise sought

Inlets to the slitter machine for large reels:

- paper/cardboard reel quality from 40gsm (grams per square meter) up to 500gsm
 - reel weight approx. 500-700kg
 - minimum reel diameter 1.50m to maximum 1.80m
 - maximum reel width 2.40m
-

Partner Sought

Expected role of the partner

Type of partner:

- Manufacturer of slitting rewinding machines for large paper/cardboard reels
- Manufacturers of paper/cardboard joint strips
- Paper mills or paper/cardboard distributors who would resell reel slitting rewinding machines

Role of the partner:

- Deliver the machine in France + installation and start-up
- Provide warranty in case of a new machine
- Give maintenance booklet in case of a second-hand machine
