General Information

Short summary

The client is currently looking for a large quantity of plastic bags of various sizes, colours and thickness. The Company operating in Malta is involved in collection of recyclable materials and these bags are needed for its ongoing operations

Full description

The company operating in Malta is involved in collecting recyclable materials, and these bags are needed for its ongoing operations. They collect bottles, which are then recycled. In a year, the company collected 100 million bottles, representing 74% of the national collection rate for used plastic bottles. The company requires a large supply of plastic bags for their operations.

Türkiye is being considered as a starting point due to its proximity but interested from other countries are welcomed. The required bags come in various specifications, as outlined below: the Manual PET bag measures 1420 x 1194 mm, has a thickness of 35 microns, is made of HD material, and is blue in color; the Manual Glass bag is 780 x 990 mm, 40 microns thick, made of HD, and green; the Flex Tri bag is 1420 x 1194 mm, 30 microns thick, made of HD, and grey; the Optima Can bag measures 870 x 1372 mm, is 30 microns thick, made of HD, and grey; and the Optima PET bag is 1140 x 1372 mm, 30 microns thick, made of HD, and grey. Pricing for these bags should include the agreed print and artwork. Packaging must be done in packs of 50, each labeled according to the agreed

specifications, and these packs should be stacked on Euro pallets for efficient handling and transport.

Advantages and innovations

Technical specification or expertise sought

As per the full description, the bags will be available in various types, sizes, thicknesses, and colours, made from HD material. Pricing should include the agreed-upon print and artwork. Packaging must be organised in packs of 50, each labelled with the specified information, and these packs are to be stacked on Euro pallets.
