General Information

Short summary

A French SME seeks a manufacturer of high-end lingerie for women, capable of producing very small batches under a white label. The range must be inclusive, covering extreme sizes (small and large) while ensuring optimal support and a chic, elegant, and tasteful aesthetic. Types of items desired: bras, panties, bodysuits, nighties, nightwear sets, corsets, and garter belts. The SME sells the products in its boutique and seeks a subcontracting agreement with a long-term partner located in Europe.

Full description

A young French lingerie boutique wants to celebrate all women, regardless of their shape, size or background. Its goal is to offer affordable, high-end lingerie that combines comfort, elegance and kindness.

With this in mind, the SME is looking for a European manufacturer of fine, high-end lingerie, capable of producing very small quantities under a white label, with high standards in terms of quality, support and finish.

The SME wishes to collaborate with a partner who is sensitive to the diversity of women's body types and capable of designing an inclusive range, from the smallest to the largest sizes, while guaranteeing excellent support, refined aesthetics and a chic, feminine and tasteful style.

The types of products sought are:

- bras (with or without underwire, including post-mastectomy models)
- briefs, shorts, thongs
- bodysuits and corsets
- babydolls and nightwear sets
- suspender belts and matching accessories

The French SME is looking for beautiful and comfortable lingerie, designed to flatter all body types, including larger sizes, with optimal support even without underwire.

The desired materials for the lingerie are noble, refined and European, such as:

- fine lace, embroidered tulle, plain tulle
- high-quality Italian microfibre, silk or satin
- discreet touches of lurex for a luminous effect

These materials must be soft, breathable, comfortable against the skin and durable over time.

comfort, support and durability. The aim is to offer refined, technical and accessible lingerie, designed with authenticity and high standards.

The ambition is to offer lingerie that celebrates the beauty of all women, with elegant, inclusive and comfortable designs that reflect the values of confidence, kindness and assertive femininity.

Advantages and innovations

Technical specification or expertise sought

The European manufacturer sought must have experience in high-end lingerie, capable of producing small batches while maintaining an excellent level of quality and finish.

The ideal partner will combine craftsmanship, production flexibility and pricing consistent with accessible high-end lingerie. The aim is not to obtain the lowest cost, but to find a balance between quality, comfort, aesthetics and accessibility for customers.

The expected expertise includes:

- technical expertise in corsetry and hosiery, particularly for large cup sizes and non-underwired styles,
- mastery of fine and delicate materials (lace, tulle, embroidered tulle, microfibre, satin, silk, lurex),
- the manufacture of post-mastectomy lingerie, with integrated pockets and soft finishes.
- the ability to produce bespoke prototypes with precise morphological adjustments,
- rigorous quality control, fluid communication and reasonable lead times for small production runs.

The constraints concern:

- consistent quality, even for small volumes,
- ethical and responsible production within the European Union,
- flexibility in minimum quantities,
- fair prices, consistent with beautifully crafted lingerie that is accessible without compromising on quality.

The French SME is seeking a reliable and committed partner who shares their values of inclusivity, femininity and elegance, and is ready to support the development of a fine lingerie brand that celebrates all women.

Partner Sought

Expected role of the partner

Type of partner:

The ideal partner is a small-scale textile workshop with experience in high-end lingerie, capable of producing small runs of lingerie and open to personalised collaboration for prototype development, fit adjustments, material selection and quality control.

The white label manufacturer of fine lingerie must offer a catalogue of models, small batches, large sizes, and a variety of shapes and materials. This manufacturer must be located in Europe (France, Italy, Portugal, Poland, Lithuania, etc.) and work in an ethical and responsible manner, using certified materials and promoting European craftsmanship.

Role of the partner:

The partner must support the French boutique in developing an affordable high-end lingerie line, contributing their technical expertise, craftsmanship and ability to produce small batches. The partner will participate in the development of prototypes, adjusting cuts to suit different body types, and ensuring consistent quality throughout production.

The partner will also be expected to make proposals regarding materials, finishes, technical solutions for high support and post-mastectomy models. Their role is to be a key player in the brand's success, working in a spirit of sustainable collaboration, transparency and ongoing exchange, in order to create lingerie that enhances all women with elegance, comfort and inclusivity.
