## General Information

---

### Short summary

The Austrian company in the construction industry is looking for manufacturers of precast concrete elements, bricks, and lightweight concrete blocks. The company works with mineral foam insulation, which is an economical and sustainable alternative to synthetic insulation materials. This insulation material is filled into precast concrete elements, bricks, and lightweight concrete blocks.

## Full description

The Austrian company works with innovative mineral foam insulation and is one of the pioneers in the field of sustainable building insulation. The solution it has developed is an economical and environmentally friendly alternative to conventional synthetic insulation materials and meets the highest standards of safety and performance. It is characterized by complete fire resistance, excellent insulation values, a low carbon footprint, and 100% recyclability.

Thanks to its many years of experience in the industrial production and processing of mineral insulation materials, the company has extensive expertise in integrating insulation into precast concrete elements, bricks, and lightweight concrete blocks. The focus is on durable, resource-saving solutions that meet both ecological and economic requirements and make a sustainable contribution to modern construction.

### Key advantages

- High thermal insulation performance [ 0.035 – 0.039 W/mK] DIN 4108-4
- Non-combustible A1, DIN EN 13501-1
- Low CO2 equivalent [57 kg CO2/m3] ISO 14067:2018
- 100% recyclable

The company is currently looking for manufacturers/producers of precast concrete elements, bricks, and lightweight concrete blocks.

## Advantages and innovations

## Technical specification or expertise sought

The company is currently looking for manufacturers/producers of precast concrete elements, bricks, and lightweight concrete blocks.

## Stage of development

**Already on the market**

## Sustainable Development goals

- **Goal 9: Industry, Innovation and Infrastructure**
- **Goal 17: Partnerships to achieve the Goal**

## IPR Status

## IPR Notes

## Partner Sought

### Expected role of the partner

The company is seeking strong partners in the construction industry, such as manufacturers of precast concrete elements, bricks, and lightweight concrete blocks. Other partners could include architects, planners, and property developers.

### Type of partnership

**Commercial agreement**

### Type and size of the partner

- **SME <=10**
- **SME 50 - 249**
- **SME 11-49**
- **Big company**

## Dissemination

---

### Technology keywords

### Market keywords

- **09007003 - Distribution of building products and systems**
- **09004008 - Other manufacturing (not elsewhere classified)**
- **09007002 - Manufacture of construction materials, components and systems**
- **09007001 - Construction companies**

### Targeted countries

### Sector groups involved

- **World**
