General Information

Short summary

A Swedish company active in the food sector is seeking international suppliers of baby food grade oat flour for use in premium food products. The requested oat flour must be organic, gluten-free and offer a shelf life of at least 12 months.

Full description

A Swedish company operating in the food sector is looking for reliable international suppliers of baby food grade oat flour for use in high-quality food applications. The company is focused on sourcing ingredients that meet strict quality and food safety standards while supporting sustainable and organic production methods.

The requested oat flour must comply with baby food grade requirements and be suitable for food products intended for young children. The flour must also be certified organic and gluten-free. A minimum shelf life of 12 months is required to support efficient logistics and inventory management.

The company is particularly interested in suppliers capable of offering flexible purchasing volumes. Preferred minimum order quantities are below 1 tonne, although the company expects regular purchases of at least 500 kg per order. Suppliers with experience in supplying food manufacturers, especially within infant or baby food applications, are of strong interest.

The cooperation is envisaged under a commercial agreement with supplier arrangements. The selected partner is expected to ensure consistent product quality, reliable delivery schedules and clear documentation regarding certifications, traceability and food safety standards. Targeted cooperation may include long-term supply collaboration with partners able to scale volumes in line with future growth.

Advantages and innovations

- Focus on high-quality organic and gluten-free ingredients suitable for baby food applications
- Interest in long-term cooperation with scalable purchasing potential
- Flexible sourcing approach with realistic and stable purchasing volumes from 500 kg upwards
- Requirement for 12-month shelf life supports efficient supply chain planning and reduced waste
- Preference for suppliers experienced in traceability, food safety documentation and infant food standards

Technical specification or expertise sought

The requested oat flour should:

- Be certified organic
- Be certified gluten-free
- Meet baby food grade or infant food grade standards
- Have a minimum shelf life of 12 months from production date
- Include relevant food safety and traceability documentation
- Preferably be available with MOQ below 1 tonne
- Be suitable for recurring orders starting from approximately 500 kg
