General Information

Short summary

A leading Romanian producer of natural juices, organic products, and dietary supplements is seeking manufacturers or suppliers of BPA-free plastic bottles and compatible closures suitable for hot-fill applications for a new children's beverage range.

Full description

The company is one of Romania's leading producers of natural juices, dietary supplements, and organic products, offering a portfolio of over 150 proprietary products distributed through its own online platform, major retail chains, and pharmacy networks.

As part of its product development strategy, the company plans to launch a new range of beverages for children in Autumn 2026. The new products will be packaged in small-format bottles designed for convenient daily use at school and during outdoor or leisure activities.

To support this new product line, the company is looking for experienced manufacturers or suppliers of food-grade plastic bottles and compatible closures suitable for hot-fill processing. The selected supplier should be able to provide product samples for technical evaluation prior to commercial discussions and future orders.

The company is interested in establishing long-term cooperation with reliable packaging partners capable of supplying high-quality packaging solutions compliant with European food contact regulations.

Advantages and innovations

One of Romania's leading brands in the natural health products sector.
Strong distribution network through retail chains, pharmacies, and e-commerce.
Continuous investment in product innovation and portfolio expansion.
Long-term sourcing opportunity for packaging suppliers.
High production volumes and stable market presence.

Technical specification or expertise sought

The company is looking for suppliers able to provide:

Food-grade plastic bottles with a capacity of 200 ml or 250 ml.
Bottles suitable for hot-fill applications, capable of withstanding pasteurization at minimum 80°C.
BPA-free material compliant with EU food contact legislation.
Compatible temperature-resistant closures/caps suitable for hot-fill processing.
Recommendations regarding the most suitable bottle and closure combination.
Various cap colour options.
Bottles with smooth walls, suitable for applying clear-on-clear labels.
Availability of product samples for technical evaluation before purchase.

IPR Notes

Partner Sought

Expected role of the partner

The company is seeking:

Manufacturers of food-grade plastic bottles.
Packaging producers specialized in beverage packaging.
Suppliers of hot-fill packaging solutions.
Manufacturers of compatible food-grade closures and caps.

The partner should be able to supply samples, provide technical support regarding packaging compatibility, and establish a long-term supplier agreement.
