## General Information

---

### Short summary

A German metal fabrication company specialized in automated laser cutting and modern sheet metal processing is looking for reliable European suppliers of steel, stainless steel and aluminium sheets and plates for long-term cooperation.

#### Full description

The metal fabrication company, located in the Northeast of Germany, is specialized in automated laser cutting, CNC processing, welded assemblies and industrial metal fabrication.

Due to continuous growth and increasing production volumes, the company is currently expanding its European supplier network for steel, stainless steel and aluminium materials.

The company is particularly interested in direct cooperation with manufacturers, mills, service centers or large-scale distributors able to provide competitive pricing, reliable delivery times and long-term supply capabilities.

Current material demand includes:

#### Structural steel:

- \* Grade: S355 or equivalent according to EN 10025
- \* Thickness range: mainly 3 mm – 10 mm
- \* Surface: pickled and oiled
- \* Estimated demand: approximately 70–80 tons within 3 months

#### Heavy plates:

- \* Grade: S355
- \* Thickness range: 12 mm – 30 mm
- \* Estimated demand: approximately 20–25 tons within 3 months

#### Aluminium sheets:

- \* Alloys: EN AW-5754 (AlMg3), AlMg4.5Mn
- \* Thickness range: 2 mm – 10 mm
- \* Standard sheets and checker plates (Quintett)
- \* Increasing demand due to new serial production projects

#### Stainless steel:

- \* Grades: 1.4301 (V2A), 1.4404 / 1.4571 (V4A)
- \* Thickness range: 1 mm – 10 mm
- \* Cold rolled, hot rolled and partially ground surfaces

#### Additional materials:

- \* S355MC
- \* DC01
- \* Galvanized sheets (DX51D + Z)

#### Requested information:

- \* Indicative prices per ton
- \* Minimum order quantities
- \* Standard formats and dimensions
- \* Typical delivery times to Northern Germany
- \* Logistics and Incoterms
- \* Availability of EN 10204 / 3.1 certificates

#### Advantages and innovations

- \* Modern automated production technologies
- \* High flexibility for small and medium batch sizes
- \* Experience with complex assemblies
- \* Integrated digital workflows
- \* AI-supported production optimization
- \* High process reliability
- \* Certified welding processes
- \* Fast reaction times and flexible manufacturing capacity

#### Technical specification or expertise sought

The company is looking for established companies in the metal and steel industry.

#### Stage of development

**Already on the market**

#### IPR Status

#### IPR Notes

#### Sustainable Development goals

- **Goal 9: Industry, Innovation and Infrastructure**

## Partner Sought

---

#### Expected role of the partner

The company aims to establish stable and long-term supplier partnerships and is especially interested in scalable cooperation models supporting future growth in aluminium processing.

#### Type of partnership

**Commercial agreement**

**Supplier agreement**

#### Type and size of the partner

• **SME 50 - 249**

• **SME <=10**

• **Big company**

• **SME 11-49**
